Investment

ONE-TIME SETUP	MONTHLY SERVICE
₱9,500 ₱4,500 LAUNCH PROMO	₱1,250 /month
Full system setup, deployment and go-live for your store, includes your first month of hosting FREE.	Billing starts on your second month. Covers hosting, maintenance, daily data backups, updates and support.

No long-term lock-in. Cancel anytime with 30 days' notice, your data is exported and handed to you.

Everything Your Store Needs in One System

Point of Sale & Orders	Fast order taking, parked orders, discounts, complimentary items, multiple payment methods (cash, GCash, card and more).
QR Table Ordering	Customers scan a QR at the table and order from their own phone, orders appear on your staff screen instantly.
Inventory Management	Live stock tracking, restocking with cost averaging, spoilage recording, expiry-batch alerts and end-of-day counts.
Full Accounting, Built In	Double-entry ledger, profit & loss, balance sheet, receivables/payables, tax reports, no separate bookkeeping software needed.
Business Reports	Daily sales summaries, best-seller analysis, profit by category, cashier variance and monthly financial statements.
Staff Management	Role-based access, time clock with breaks, shift tracking and a complete audit trail of every action.
Client Portal	For delivery/logistics clients: their own login to view and confirm their orders.
Works Everywhere	Runs in any browser, tablets, phones, PCs. Installable as an app, with offline order queueing.

Enterprise-Grade Hosting Included

Server	Dedicated cloud server with AMD EPYC processors and NVMe SSD storage
Memory	Fast, dynamically allocated: scales automatically with your store's traffic, rush hours included
Your Storage	25 GB reserved per client: 20 GB for your live business data plus 5 GB dedicated backup space
Capacity	Built for high volume: 500+ orders and 1,000+ ledger entries per store, per day
Speed	1 Gbps network on a data center nearest your location for fast response at the counter
Real-Time	Live order updates across all devices, no refreshing, no delays
Security	HTTPS encryption, firewalled database, role-based logins, full audit logging
Backups	Automatic daily off-site data backups PLUS weekly full-server snapshots
Uptime	Health-monitored 24/7 with automatic recovery

Good to Know

- No lock-in: cancel anytime with 30 days' notice, we export and hand over all your data.
- What you save: comparable POS subscriptions run ₱3,000+/month and still need separate bookkeeping software, Semivra Libellus includes full accounting.
- Price protection: your monthly rate is locked for 12 months from sign-up.
- Support: business-hours support included; urgent store-down issues prioritized same-day.

Prepared July 07, 2026 · Prices in Philippine Pesos and inclusive of hosting and support · Custom features, additional branches and data migration quoted separately.
